

Generic Rapid LCA Templates

In this section, you will find the templates for completing Rapid Logistics Capacity Assessments (RLCA). The Logistics Cluster has developed the RLCA as a comprehensive tool for logistics assessments in emergency situations.

The objective of the RLCAs is to provide guidance to logisticians from NGOs, UN agencies, and other organisations working on the ground during an emergency response situation and particularly during:

- The assessment phase of the logistics situation on the ground
- The implementation phase of logistics activities
- Form and Presentation

Clear instructions are provided in each template as follows:

Template
Airports & Airstrips Assessment
Fuel Assessment
Procurement Assessment
Rail Assessment
Road Assessment
Seaports Assessment
Warehouse Assessment
Water Transports Assessment
