This version of the LOG is the first inception; based on feedback, new insights, evolving best practices and developments the platform will be continuously updated. And as the content in the LOG is based on manuals and documents from over 28 humanitarian organisations, academia and the private sector, the information flow might at places require tweaking and fine-tuning.

You are kindly invited to support further development of the LOG and share your suggestions and feedback with the team via: hq_im_rome@wfp.org

**Preparedness**
- Logistics
- Intervention Types
- “Before you go”
- Terms of Reference
