

2.2.2 Timor-Leste Baucau National Airport

Baucau or Cakung airport is located 6.5Km west of Baucau town and has the status of an international airport as it has the capability of receiving international flights, however it is currently unattended.

The airport is available for use between sunrise and sunset; operators intending to operate into Baucau must contact CAD at +670 3317 110 ext 101 or 102. Fax No. +670 3317 111

The runway is in very good condition (better than Dili airport) and can serve Ilyushin Il-76 (Max takeoff weight: 157,000 kg) or Antonov 124s.

There is an apron with asphalt surface 100m x 108m connected to the runway by a 37 m stretch of asphalt taxiway.

The control tower is still in place, but is dysfunctional although Terminal Aerodrome Forecasts are available through the Darwin MET office. The terminal buildings are currently used as a barracks and operations center for UNPOL border patrol units.

However, as there is no traffic control, fire fighting equipment or ground handling facilities, an advance team would be needed to set up communications and security for emergency operations.

Airport Details			
Country	Timor-Leste	Latitude	-8.485472
Province / District	Baucau	Longitude	123.3993
Airport Name	Baucau / Cakung	Elevation (ft)	1,777 ft
