

## 2.6 Syrian Arab Republic Storage Assessment

### Syrian Arab Republic Storage Assessment

- The GoS has many storage facilities distributed all over the governorates that belong to different institutions and ministries
- Accurate information on the total storage capacity therefore is not available
- WFP counterparts have 7,000 Mt of warehouse capacity used only for food items
- In addition there is The Syrian Storage & Refrigerator company which has warehouse capacity for 60,000 Mt of food (Source: Central Bureau of Statistics: 2005)
- Building a new warehouse is not easy in Syria as there are as many as 26 procedures to be fulfilled which can take about 128 days with many associated costs

A list of procedures to build a new warehouse has been annexed.
