International airport named after S. Turkmenbashy is on crossing of the international air lines. It has been constructed in 1994. Capacity of air terminal is 1600 passengers per hour. There are two artificial runways equipped on second category ICAO and platform, allowing to accept aircrafts of all types. Annually its services use more than one and a half millions passengers on local and international air-lines. On the area near the station are located stops of a municipal transportation and a taxi, allowing to deliver passengers in any point of capital. There is a round-the-clock parking of cars. For visitors and inhabitants of Turkmenistan in a building of an aerostation complex are located and work in a round-the-clock mode:

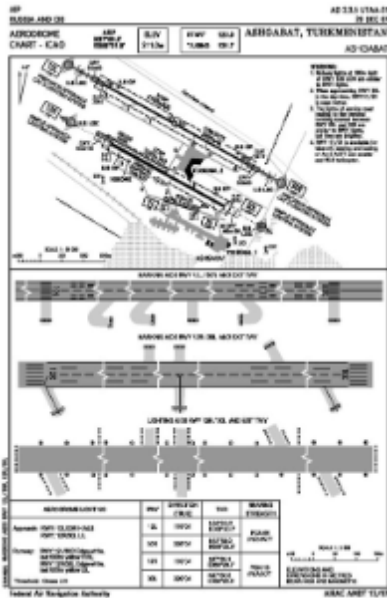

- spacious waiting rooms;
- business club;
- a mother-and-child room;
- help information;
- the international telecommunication;
- cash desks on sale and booking of tickets;
- shops, restaurants, bars, fast food points;
- exchanges;
- halls the VIP and CIP
- offices of representations of airlines
