

## 3.2 Mozambique Transporters

### Mozambique Transporters

Regional round-trip transit times: Lilongwe = 8 days, Blantyre = 6 days, Lusaka = 8 days, Harare = 3 days... these are estimates and providing there are no border crossing/clearance delays. Routings to Malawi ex- Beira: Blantyre is best via Milange (Mulanje) and Lilongwe is best via Tete and Calomue (Dedza). The Tete Bridge crossing rate for trucks is MZN 800 (US \$23) for north-bound traffic only but delays can be as long as 4 days due to lane closures from maintenance. The new Armando Emilio Guebuza Bridge over the lower Zambezi at Caia has the same rates but without any delays
