

3.5 Dominica Food and Additional Suppliers

Dominica is dependent on importing all vital supplies (food and beverage requirements), it is a net importer of goods and services. Most of the basic food basket products are imported except some fruits and vegetables. The top import origins are the USA, China, Thailand, the United Kingdom, and France. Food and other mass consumer products are retailed by 4 main suppliers, same suppliers provide also construction material, household appliance, and services. Therefore, there is a limited food processing industry in Dominica. Natural disasters have contributed to a reduction in agricultural production and exports.

For more information on food and additional suppliers contact details, please see the following link: [4.10 Food and Additional Suppliers Contact List](#)
