Registration nr: 40103027342

Shipping Lines

Regular shipping line status at the Riga port is granted to container, ro-ro and passenger transportation service providers with the aim to facilitate the said cargo and passenger flow attraction. Regular shipping line status provides such benefits as the port dues discounts that are applied for every vessel's port call, depending on the number of vessel calls per year. Line status and rebate application procedure are stipulated in the Port Dues and Charges of the Port of Riga.

In 2017 an agreement with the Freeport of Riga Authority was concluded by 6 container shipping lines and one passenger line.
